3. PRC-20250821-03 - ARP-20250710-02 - Koch Pipeline Company, LP - Pending

**RULE 4.4: GENERAL PROCEDURES RELATED TO RENEWAL AND AMENDMENT OF PERMITS**

1. The district shall not renew a permit that has expired before an administratively complete application requesting the renewal of the permit has been submitted to the

district.

2. The district shall not renew a permit associated with a proposed well.

3. The well owner, authorized agent, or the authorized operator of a permit shall submit an administratively complete application requesting the renewal of the permit prior to the permit expiration date.

4. The general manager may authorize an authorized operator of a permit for which an administratively complete application requesting the renewal of the permit has been submitted to the district to continue authorized activities of the permit under the conditions of the permit, subject to any changes necessary under the rules of the district, or the Management Plan of the district, for the period of time during which the application requesting the renewal of the permit is the subject of a contested case hearing.

5. The district shall, without a hearing, consider an application to renew a permit submitted to the district provided that:

5.1. the application, if required by the district, is submitted in a timely manner and accompanied by any required fees in accordance with rules of the district; and

5.2. the authorized operator is not requesting an amendment to the permit in conjunction with the request to renew the permit.

6. The district shall not renew a permit if the owner of groundwater resources or authorized operator:

6.1. is delinquent in paying a fee required by the district;

6.2. is subject to a pending enforcement action for a substantive violation of a permit, order, or rule of the district that has not been settled by agreement with the district or a final adjudication; or

6.3. has not paid a civil penalty or has otherwise failed to comply with an order resulting from a final adjudication of a violation of a permit, order, or rule of the district.

7. The district shall consider a permit that the district did not renew because the applicant or authorized operator of the is subject to a pending enforcement action for a substantive violation of a permit, order, or rule of the district, which has not been settled by agreement with the district or a final adjudication, to be in effect until the final settlement or adjudication on the matter of the substantive violation.

8. The district shall consider a request to renew a permit, as it existed prior to the initiation of an amendment process, without penalty if the amendment process results in a denial of the amendment unless the applicant or authorized operator of the permit:

8.1. is delinquent in paying a fee required by the district;

8.2. is subject to a pending enforcement action for a substantive violation of a permit, order, or rule of the district that has not been settled by agreement with the district or a final adjudication; or

8.3. has not paid a civil penalty or has otherwise failed to comply with an order resulting from a final adjudication of a violation of a permit, order, or rule of the district.

9. The well owner, well field owner, or well system owner of a non-exempt-use well, a nonexempt-use well field, or a non-exempt-use well system shall submit to the district an application to amend any registrations or permits within ninety days (90 days) of acquiring the non-exempt-use well, the non-exempt-use well field, or the non-exempt use well system.

10. The board of directors shall consider administratively complete applications to amend a permit or waiver requested by the well owner, authorized agent, or the authorized operator of a permit or waiver that involve the substantive provisions of the related permit or waiver such as production rates, production amounts, purposes of use, or conditions of the permit.

11. The general manager may process and issue amendments to permits and waivers associated with administratively complete applications to amend a permit requested by the well owner, authorized agent, or the authorized operator of a permit that are solely administrative in nature that do not involve the substantive provisions of the related permits or waivers such as production rates, production amounts, purposes of use, or conditions of the permit.

12. The district shall consider the permit associated with an application requesting an amendment to the permit as being in effect as the permit existed before the submittal of the administratively complete application requesting an amendment to the permit until the later of:

12.1. the conclusion of the permit amendment or renewal process, as applicable;

or

12.2. final settlement or adjudication on the matter of whether the change to the permit requires a permit amendment.

13. The district may initiate the process for amending a permit in connection with the renewal of a permit.

14. The district shall consider the permit associated with an amendment process initiated by the district as being in effect as the permit existed before the district initiated the amendment process until the conclusion of the permit amendment process.

Regarding Rule Amendments for FY2025.

Regarding Legislative Support and Lobbying for FY2025.

#### **Topic 8.2 - Management Recommended Rule Revisions**

Mr. Andruss provided the following information:

Staff have identified several aspects of the Rules of the District that could be amended to improve the clarity of the district's policies and improve on the District's efforts to properly conserve and protect groundwater resources within its jurisdiction.

In order to clarify that reporting requirements apply to all wells used to produce groundwater used for purposes other than exempt-use purposes, regardless of any classification that may be applied to the registration of a well by the district, management believes Rule 4.2 would benefit from the following revisions:

2. The owner of groundwater resources produced from a non-exempt-use well that produced groundwater for non-exempt-use purposes shall report the volume of groundwater produced from the non-exempt-use well for the preceding calendar year to the district.

4. The owner of groundwater resources produced from a non-exempt-use well that produced groundwater for non-exempt-use purposes shall report the volume of groundwater produced from the non-exempt-use well that is accurate within ten

percent (10%) of the actual volume of groundwater produced by the non-exempt use during the calendar year.

5. The owner of groundwater resources produced from a non-exempt-use well well that produced groundwater for non-exempt-use purposes shall report the volume of groundwater produced from the non-exempt-use well for the previous calendar year (January 1 to December 31) during January of the current calendar year.

6. The owner of groundwater resources produced from a non-exempt-use well well that produced groundwater for non-exempt-use purposes shall report the volume of groundwater produced from the non-exempt-use well using a form provided by the district.

7. The owner of groundwater resources produced from a non-exempt-use well well that produced groundwater for non-exempt-use purposes shall include the following information when reporting the volume of groundwater produced from a non-exempt-use well:

In order to clarify the the requirement related to water flow gradients apply to both the Guadalupe River and the San Antonio River, management believes Rule 6.3 would benefit from the following revision:

1.3. the operation of the subject well, subject well field, or subject well system shall not cause the water flow gradients to be altered between the Gulf Coast Aquifer System and those portions of the Medio Creek, Blanco Creek, Melon Creek, Copano Creek, Salt Creek, Aransas River, Mission River, Guadalupe River or and San Antonio River water bodies located within the district.

In order to establish a deadline for the seeking historic use protections, management believes Rule 5.1 could be amended to establish deadlines for a) submitting applications related to historic use protection and b) approval of historic use protection permits.

**RULE 5.1: GENERAL POLICIES RELATED TO PROTECTION OF HISTORIC USE PERMITTING**

8. The district shall not accept nor process applications for production permits for the protection of historic use after December 31, 2028.

9. The district shall not approve nor issue production permits for the protection of historic use associated with permit applications submitted to the district after December 31, 2028.

In order to clarify the established policy related to the District's general procedures related to permitting, management believes Rule 4.3 would benefit from the following revisions:

**RULE 4.3: GENERAL PROCEDURES RELATED TO PERMITTING**

6. The district incorporates the application and all supplemental information submitted with an application for a permit is incorporated into any resulting the permit approved by the district. 7. The district issues, approves, and grants a permit on the basis of and contingent upon the accuracy of the information supplied in the

associated application. 8. Acceptance of a permit by the The applicant, the authorized agent, the authorized operator, or and the owner of groundwater resources constitutes acknowledgement and acceptance of, by accepting a permit, acknowledges and accepts the conditions, limitations, and restrictions of the permit and the rules of the district. 9. A decision regarding the permit is final if the The applicant, the authorized agent, the authorized operator, or the owner of groundwater resources, and all other interested or affected parties consider a decision regarding a permit final if any of the parties fail to file a request for rehearing within twenty days (20 days) of the decision. 10. An application The district shall be automatically withdrawn withdraws an application submitted under the rules of district from the district if the applicant fails to provide any information requested by the general manager needed to fully consider the application relative to the rules of the district within 60 days of the request being sent to the applicant.

In order to clarify the established policy related to the District's general procedures related to non-historic use permitting, management believes Rule 6.2 would benefit from the following revisions:

**RULE 6.2: GENERAL PROCEDURES RELATED TO NON-HISTORIC USE PERMITTING**

12. A permit shall be The district automatically terminated terminates a permit approved for a proposed well if the construction of the proposed well is not completed within 365 days of the date the production permit was issued approved by the district.

If instructed to prepare for a rulemaking hearing during the meeting scheduled on January 9, 2026, staff will coordinate with legal counsel on drafting a set of proposed rules as well as publish and post all required notices.

**Board Action:** Mr. Biery moved to instruct the general manager and legal counsel to draft set of proposed rules as well as publish and post all required notices to conduct a rulemaking hearing during the meeting scheduled on January 20, 2026. Mrs. Rose seconded the motion. The motion passed unanimously.

**Item 9 - Consideration of and possible action on matters related to administration and management including the minutes of previous meetings, amendments to the annual budget of the district, bank accounts, investments, financial reports of the district, bills and invoices of the district, management goals and objectives of the district, administrative policies, staffing, consultant agreements, interlocal cooperation agreements, and support services provided to and from other groundwater conservation districts.**
